IELTS SPEAKING MODULE

Complete Syllabus & Study Guide

1. Module Overview

The IELTS Speaking test is a face-to-face interview with a certified examiner lasting **11–14 minutes**. It is the same for both Academic and General Training candidates and is recorded. The test consists of three parts designed to assess a range of speaking skills in different interactive contexts.

2. Key Facts at a Glance

3. Test Structure (3 Parts)

4. Assessment Criteria (4 equally weighted)

5. Preparation Tips & Strategies

- Practise speaking every day — record yourself and listen critically.
- Expand answers in Part 1; avoid one-word or very short replies.
- For Part 2: use the 1-minute preparation to note key points (not full sentences).
- Structure your long turn: introduction → main points with examples → short conclusion.
- In Part 3, develop answers fully — give reasons, examples and consider different viewpoints.
- Work on fluency by speaking on random topics for 1–2 minutes without stopping.
- Improve pronunciation through shadowing native speakers and focusing on word stress/intonation.
- Learn useful phrases for expressing opinions, agreeing/disagreeing, speculating and comparing.
- Stay calm and natural — the examiner wants to hear your best English, not perfection.

6. Common Topic Areas

Home & accommodation • Family & relationships • Work & studies • Hobbies & free time • Travel & holidays • Food & health • Technology • Environment • Education • Culture & traditions • Media • Cities & countryside • Future plans • Social issues
